Position Purpose

The role of Regional Extension Officer is to provide effective leadership and support for the dairy industry to deliver innovative, well-planned and collaborative regional extension and education activities in dairy regions. The approach will drive maximum practice change to achieve profitability and sustainability improvements on dairy farms.

The role has a strong focus on working closely with regional networks, including dairy advisers and service providers, to ensure that dairy farmers, advisers and service providers are well engaged in extension activities where relevant and are kept up to date on regional, state and national dairy R, D & E programs and information.

- The Regional Extension Officer will have a particular focus on:
- Regional delivery of dairy productivity extension activities.
- Ensuring that regional program delivery is aligned to regional priorities and industry targets. This includes initiating development of extension activities or other support if gaps related to priority regional needs are identified.
- Coordinating and implementing plans and activities to ensure regional extension and education delivery is effective and duplication of effort is minimised.
- Communicating information between farmers, GippsDairy, Dairy Australia, the Dairy Learn Registered Training Organisations and service providers including gathering feedback, passing on information and reporting where relevant.
- Strong engagement and connecting people to ensure extension and education activities function well, people have valid and timely information, and networks are strong and effective.

The role works to ensure that research, development, extension and education investments drive a more profitable, sustainable and competitive dairy farming sector. It ensures that the outcomes of investment are relevant and made readily available to end users, especially farmers, through the range of opportunities provided by the industry and private, public and provision of education and extension services.

Main Accountabilities

Key deliverables and responsibilities of the role will be reflected annually in the Individual’s Performance Plan.

Key Performance Requirements and Key Indicators are as below:
Regional Delivery:

- Identify extension opportunities to drive practice change on dairy farms;
- Plan and coordinate the delivery of programs, projects and events as required;
- Deliver extension and education programs as directed by the Regional Manager;
- Develop a detailed knowledge of extension activities for regional delivery currently available through Dairy Australia, other RDPs and other relevant organisations and agencies;
- Implement and manage processes and systems to support the planning, coordination of extension and education activities.
- Lead the coordination of regional extension forums and stakeholder meetings, as directed by the Regional Manager;

Relationship Management:

- Develop, maintain and manage key relationships with colleagues, farmers, service providers, extension partners, regional authorities, training providers and Dairy Australia to deliver on the regional plan;
- Expand existing and new delivery networks, including brokering effective relationships between dairy farmers and skilled service providers.
- Manage partnerships and allocated network leadership roles within the region, including discussion group convenors, facilitators, and coordinators, as directed by the Regional Manager.
- Develop and maintain a good understanding of existing and emerging issues within the region through information networks at a regional, state and national level.
- Engage and collaborate with providers and partners to achieve leverage and positive outcomes for dairy farmers and service providers.
- Assist to align and integrate regional extension and education program delivery.

Planning, Evaluation and Reporting:

- Contribute to the development of an agreed regional plan for program delivery;
- Execute and review personal performance objectives, plans and targets to achieve implementation of the regional plan.
- Participate in planning the promotion and effective delivery of extension and education products, tools and activities within the region that meet farmer and industry goals.
- As required, contribute to the monitoring and evaluation of regional delivery activities, in line with Dairy Australia evaluation framework and processes;
- Report to meet GippsDairy and Dairy Australia requirements as directed;
- Report any identified or emerging issues that farmers may be facing accurately and promptly.

Product and Service Development:

- Present a regional perspective (including the “voice of the farmer”) to contribute to the development and implementation of Dairy Australia’s initiatives and projects;
- Support the development of extension plans and activities to meet regional needs;
- Use whole farm system knowledge, farmer behaviour knowledge and change management principles to ensure extension programs, products and services for farmers and their service providers are designed and delivered effectively;
How we work:

- Deliver a consistently high standard of service delivery.
- Support Dairy Australia values and principles
- Ensure compliance with the organisation’s policy frameworks and legislative requirements in relation to human resource management; e.g. EEO, OHS, etc.
- Actively support and contribute to Dairy Australia organisational culture of one team
- Comply with and actively ensure safe working practices of self and others in accordance with Dairy Australia Health and Safety Policies
- Demonstrate a ‘can do’ approach, including flexibility of working hours as required.

Specific Position Requirements

Experience/Knowledge/Abilities

Experience

- Strong knowledge of and experience in agriculture at the farm level. Including knowledge of, and experience working within, the dairy industry.
- Outcome driven focus, with a strong understanding of farming systems, technical aspects of farm production and dairy farmers’ requirements.
- Strong understanding of change management principles and experience in change management programs that support high levels of farm performance.
- Leadership in the development, implementation, management and delivery of programs in an agricultural environment.
- Track record in initiating and establishing partnerships and networks, and maintaining effective relationships and influencing key partners and stakeholders.
- Proven ability to exercise sound judgement in complex decision-making and to execute operational planning.
- Demonstrated written and verbal communication skills, adaptable to the audience.
- High level capacity for self-management and initiative.
- Ability to challenge status quo constructively and continuously look for opportunities for improvement.
- A tertiary qualification in agriculture, animal science/husbandry, veterinary science or approved equivalent or significant demonstrated experience in agriculture.
- Capacity to maintain effective relationships with individual farmers, service providers and other key industry influencers.
- Demonstrated experience in working with farmers and groups of farmers, including the delivery of information and programs.
- Demonstrated experience in developing and conducting projects, including monitoring and evaluation for project(s)
